

Art

Programme of Study: Key Stage 3 to Key Stage 5

Quality of Education Intent Statement: Art & Design

<u>Curriculum</u>

Our curriculum follows the national curriculum. Our curriculum provides core knowledge of the formal elements and related contextual influences, building and deepening this learning as the foundations for all practical skills. We strive to ensure that our students have a broad experience of creative techniques and processes that will enable all students to achieve artistic success. We encourage all abilities and key stages to have high aspirations and enable them to think independently ready for further education and future careers.

We encourage students to personalise themes to individualise outcomes and take ownership of their learning. Our curriculum builds essential life skills by building confidence in communication of concept and emotion, evaluative skills and problem solving. We want students to be inspired by their lessons to continue learning beyond the classroom.

Teaching and Learning

Our vision is that teaching in the Art Department inspires curiosity and challenges students to think, reflect and to work hard.

We employ a diverse range of teaching strategies and activities to raise engagement, increase productivity and stretch and challenge students of all abilities. We scaffold all learning to enable high quality outcomes from all groups.

Our teaching is underpinned by the whole school fundamental principles of: High Expectations of Behaviour for Learning; Quality of Instruction; Curriculum and Subject Knowledge; Adaptive Teaching; Learning and Making it Stick and Effective Feedback

Students understand our high expectations through our use of modelling exemplar work and practical demonstrations. They are provided with regular opportunities to review and refine their work encouraging self-reflection. Our students are confident in communicating with their peers about key artistic concepts and processes.

<u>Assessment</u>

Essentially we assess the learning of students in two ways, which act as two separate layers of assessment. These are as follows:

Layer 1: Formative - on-going, ungraded and focused on smaller chunks of the curriculum.

Layer 2: Summative – roughly 6 times per year. Knowledge included will build cumulatively through the year. They cover 4 key assessment criteria across a variety of media: Artist/photographic analysis, Development/Experimentation, Drawing/Photography/Recording and Personal Responses.

We identify students' strengths and weaknesses and then adapt teaching to help students improve.

Some examples of formative assessment are:

- Live marking (marking students' work as they are completing it)
- Verbal feedback
- o Breaking a complex task down into several smaller parts and assessing one part at a time.
- o Questioning
- o Self, Peer and Whole Class Review

Teacher feedback is provided as Personal Learning Checklists for KS3 and a combination of written feedback or Personal Learning Checklists for KS4.

Key Concepts

| <u>Critical understanding</u> of artists, sources and concepts. | <u>Development & experimentation</u> through media, techniques, processes and exploring ideas. | Recording ideas through observation relevant to intentions. | Presenting a final <u>personal response</u> realising intentions and demonstrating visual understanding. |
|---|---|--|---|
| Research primary and contextual sources. Develop knowledge and understanding of art, craft and design in historical and contemporary contexts, societies and cultures Analyse critically, evaluate and reflect on their own work and that of others | Become confident in taking risks and learn from experience when exploring and experimenting with ideas, processes, media, materials and techniques. Acquire and develop technical skills through working with a broad range of media | Recording the observed world, using mark-making in appropriate media Exploring ideas visually, through the act of mark-making Investigating, through the exploration of drawing media, new ways of expressing ideas, feelings or observations Record notes on developments, experiments, ideas or visits. | Develop creative, imaginative and intuitive capabilities when exploring and making images, artefacts and products |

Key Themes
