

Best Ever Results in the history of Prospect School 2017

GCSE

We are a fully comprehensive school who take students of all abilities and from all backgrounds and we are very proud of the value that we add as a school.

56% of our fantastic students achieved 9-4 (standard pass) in both English and Math's which is an excellent result. 31% achieved 9-5 (strong pass) in both English and Math's which is an exceptional result. This was an excellent performance in a very difficult year for the students with GCSEs being the hardest they have ever been.

61% of students achieved a 9-4 or above in English and 69% in Math's. 40% of students achieved a 9-5 or above in English and 50% in Math's. All students on average made the expected progress in all their subjects which means they have the opportunity to go on to their next choice of study.

40% of our students achieved an A* or A in at least one subject. Many of our students did exceptionally well this year. 3 students in particular achieved the new national top grade 9 in English and Math's.

We are incredibly proud of the achievements and progress of all our students. Prospect students have shown great resilience over the past three years, with tougher exams and constantly moving goalposts. Our success is grounded in the solid relationships fostered at this school, the dedication of all our staff, consistently high quality teaching and the support of our parents.

A-LEVEL

Our Sixth Formers also achieved highly successful results with 28% of these at A*-B grades which was better than last year and has enabled many of our students to gain places at highly regarded Universities across the country, embarking on degree courses such as Law, Economics and Physics.
